USGA

## 13 Treatment of Nine-Hole Scores

USGA Handicap System (pre-2020): To submit a nine-hole score, a player must play 7 to 12 holes under the Rules of Golf. When 13 or more holes are played, the score submitted qualifies as an 18-hole score.

A player can have a Handicap Index and/or a nine-hole Handicap Index (N).
> For players with a Handicap Index, nine-hole scores are combined in the order that they are received and used to produce an 18 -hole Handicap Differential.
> For players with a nine-hole Handicap Index (N), the most recent 20 nine-hole Handicap Differentials are used in the calculation of their nine-hole Handicap Index ( N ).

Rule Change for 2020: To submit a nine-hole score, a player must play 7 to 13 holes under the Rules of Golf. When 14 or more holes are played, the score submitted qualifies as an 18hole score.
> For players with a Handicap Index, nine-hole scores are combined in the order that they are received and used to produce an 18-hole Score Differential.
> A nine-hole Handicap Index (N) will no longer exist.

## Reasons for Change:

> To ensure that each player has one Handicap Index and one Scoring Record under the World Handicap System.
o Under the USGA Handicap System, a player can maintain both a Handicap Index and a Handicap Index (N).
> The method for calculating a Handicap Index will be the same worldwide, and this applies whether a player submits all 9 -hole scores, 18 -hole scores, or a combination of both.
o A player's Handicap Index will be interchangeable for both 9 -hole and 18 -hole play.
> To enhance the integrity of the Handicap Index calculation.
o When a player with a nine-hole Handicap Index (N) competes in an 18-hole competition, doubling their nine-hole Handicap Index $(N)$ is not always fair - as the player(s) doubling their nine-hole Handicap Index $(\mathrm{N})$ are sometimes at a disadvantage and receive one or two fewer strokes than they would with an 18hole Handicap Index.
